

# 60 Second Interview with Student Ambassador, Chloe Humby

Chloe Humby, year 2 student

## **What subjects do you study?**

Psychology, sociology, English language and performing arts.

## **How did you decide to become a Student Ambassador?**

I offered to help at an Open Evening and really enjoyed it. I then decided I'd like to do this full time, so I signed up at the Enrichment Fair.

## **What have you enjoyed most about being a Student Ambassador?**

I love Open Evenings! I can encourage others to choose the right college for them by sharing my experiences and showing them what we have to offer. I'm a people person and I am very passionate about sharing my experiences and ideas to help others.

## **Would you recommend the Student Ambassador programme to other students?**

I would definitely recommend it! It's a great chance to improve your communication skills and confidence, and get more involved in the college.

## **What do you enjoy most about the college?**

The warm atmosphere makes me feel comfortable and safe, and there are a range of opportunities available to suit everyone. I've also made some amazing friendships along the way!
